

# Mockup Review Notes

## Project Title: Seattle Sounders Website

**Creative Director: Griffin Orser**

**Designer: Minju Lee**

### **Notes:**

- The crest on the header looks a little condensed. Make sure the proportions are correct. The crest in the crest tab looks right though
- I like the large photography that you scale past to get to the content on each page
- Go through the text and take out the [11] numbers with the brackets around them that are links in the actual wikipedia page
- Go with the white top bar over the blue one.
- It looks great!

## Project Title: Sunfish Website

**Creative Director: Helen Xiu**

**Designer: Griffin Orser**

### **Notes:**

- Broaden margins
- Cut down on body copy
- Darker background color
- Broader margins on the title
- More negative space all around
- Add a picture
